# CRITERION I – CURRICULAR ASPECTS

# 1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The institution ensures effective curriculum delivery through a well planned and documented process in consultation with the Academic Committee. In this regard, the College specific academic calendar is prepared by the Academic Committee in the beginning of every academic session in accordance with the

tentative academic calendar published by the Manipur University. On July 08, 2016 a meeting of all HODs of the 14 Departments was convened by IQAC prior to the commencement of the Academic session. As the college is affiliated to Manipur University, the curricula for various programmes are designed and developed by the University. The commencement of the Academic session follows the directives of the Directorate of University and Higher Education, Manipur. The college ensures effective delivery of the curriculum through proper planning by faculties. Before the beginning of the academic session allocation of the contents of the syllabus is made among the faculty members of every department. Every department prepares its own work-load, assigning faculties to deliver the curriculum developed by the university. Keeping in mind the interest and needs of learners, the activities of the academic calendar is also well prepared with Induction Programme, internal assessment, feedback and other academic programmes like tutorial/remedial classes which improve the learners without burden of their semester end examination. The Direct Teaching-Learning Workload for every department was prepared with a minimum of 16 hrs for Assistant Professors and 14 hrs for Associate Professor respectively. A General Direct Workload is also framed for centralized arrangement in the college. Direct Teaching-Learning workload for "Elective Subject" is planned by the concerned department at their own convenience for effective and efficient delivery of curriculum. Remedial courses are arranged for slow learners or educationally disadvantaged or weaker section that has started pursuing the programme in the college. These students are taught again to remove their difficulties related to their content that they previously failed to learn. Every department conducts remediation before additional skills are taught or formal tests or before any assessment. Tutorial classes are also conducted to impart knowledge in a more student-centric or outcome-centric way by giving assignments, practicum to the students to improve problem solving skills and abilities. Departmental seminars are organised among the students and faculties on different topics by making groups to increase their knowledge in different pedagogical ways. Though the credit system has not yet been established by Manipur University, considering 6 credits for a paper and 1 credit is calculated as interaction of 1 hour in a week for a semester, the interaction between faculties and students are so designed while preparing work-load of faculties. Experiential learning has been incorporated in various subjects as developed by Manipur University, namely, in undergraduate programms in Education, Geography, Botany and Zoology by way of organising study tours, field work and projects. Though experiential learning has not exclusively been developed in curriculum for other subjects, efforts are being made to explore similar methods to make teaching learning more interactive by visiting historical sites, and other places of national interest and importance.

| Employers | Yes |
| Alumni    | Yes |
| Parents   | No  |

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

### Feedback Obtained

Analysis of the feedback obtained from the stakeholders of the institution particularly students is of paramount importance for the overall development of the college. Manipur College collects feedback from students of the college as a part of Quality Assurance. The questionnaire employed covers all the facets of provision for holistic learning in this fast-paced dynamic world, such as Students' feedback on teachers, infrastructure, syllabus and co-curricular activities, curriculum and teaching, teacher quality, and other facilities. Feedback Satisfaction Survey are also collected annually from the students to ascertain their satisfaction towards the faculty, teaching-learning and evaluation. These feedbacks are collected informally and anonymity is given to respondents in order to ensure their feedback is free from intimidation or coercion. The questionnaire focusses on the teacher's performance as a teacher in the class, helpfulness, mastery of the subject matter, communication skills, sincerity and commitment. This helps the teacher to improve his/her performance in the weak areas. The collected data are analyzed using SPSS software which enables IQAC to understand the teacher's profile. Statistical test is applied to various feedback questions relating to teachers, syllabus, infrastructure and co-curricular activities to check whether the students' responses are statistically significant. The findings and shortcomings are discussed in IQAC meetings with Heads of Department to identify the underlying problems which led to the shortcomings. These problems are thereby segregated into short, medium and long term goals with suggested solutions and road map to achieve them. Any shortcomings in teaching are addressed intra-departmentally and teachers are assigned different papers by rotation in order to combat fatigue and boredom, and to motivate team-teaching and invoke vigour, and enthusiasm. The feedback is finally discussed in the general body meeting of the Manipur College Teachers' Association (MCTA) to be utilized for the overall development of the college.

#### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Mentoring improves students' performance, by either helping them to attend college regularly or once they are there, to be retained through to degree completion. It also provides educational guidance and counselling, and psychological support or mental health to the needy students. Mentoring influences students' outcomes such as sense of belongingness, capacity for responsibility, leadership, self-confidence, skills and abilities, the spirit of competition and compassion for the environment. Mentors may also benefit from relationships with undergraduate students, including improved cognitive and socio-emotional growth, teaching and communication skills. Mentored students generally earn more grades and are likely to persist in college as compared to nonmentored students. At the beginning of the academic session, each student is assigned a mentor to address their grievances within and outside the classroom. The general objectives of introducing mentor-mentee system in the college are as under: Objectives: ? To provide a reliable and comprehensive student support system ? To motivate them towards their academic and non-academic fields? To enhance students' attendance and minimize student drop-out rates. ? To identify learning difficulties and provide remedial classes to the learners. ? To render equitable service to students? To identify problems and grievances of the students and raise them to the concerned authorities. ? To help fresh students to understand the challenges and opportunities in the college and develop a smooth transition from school to collegiate life. Implementation of the Students Mentoring System: The implementation of student mentoring system will be in the following phases: Phase I: Selecting faculty mentors. Phase II: Allotment of students to the mentors. Phase III: Interaction of students with the mentors and identifying strengths and weaknesses of the mentees. Phase IV: Creating groups (mentor-mentees) to keep contact within the group. Phase V: Periodic meeting of the mentees with the mentors. Phase VI: Obtaining feedback from the mentees at the end of the session. Structure of the Students Mentoring System: Students mentoring system primarily deals with all the undergraduate and postgraduate students of our college and all fulltime teachers will perform their duties as mentors. Mentor-Mentees Ratio: 1:33 Role of Faculty Mentor (FM): The FM will perform the following duties. - Meet their group of students at least twice in each semester. - Continuously monitor, counsel, guide and motivate the students in all academic matters - To identify weakness in particular subject so that the concerned mentor apprises the matter to the concerned faculty or Head of the Department. - Maintain a progress report of the student. - Advise students in their career development guidance. - Contact parents/guardians if situation demands e.g. academic irregularities, detrimental activities etc. and arrange special meetings with the Principal if required.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Manipur college has a robust approach to the process of continuous assessment or examinations in a transparent, efficient manner, and in the best interest of students following the university rules and/or guidelines. The internal

assessment weightage consists of 25 marks and the remaining 75 marks in the final university end semester exams. The university exams are conducted uniformly across the constituent and/or affiliated colleges. The continuous internal evaluation (CIE) is conducted through class tests and assignments and is carried out in a well-planned and systematic manner based on course outcomes (COs). The evaluated answer papers related to internal examinations are shown to the students for their discrepancies to be rectified, and suggestions for improvements. Any queries related to evaluations and feedback are thoroughly addressed. Science students or students involving practical classes are awarded practical marks based on attendance, timely submission of the practical notebook, and viva-voce which makes them aware of the significance of consistency while attending practical classes. External examiners are appointed through the university during practical examinations. Students who are slow learners are given multiple opportunities to improve in their CIE. Students involved in extra-curricular works like NCC, NSS, or active members in societies are given ample opportunities to catch up with the rest of the class. The college has a well-defined system related to examination related grievances. The final CIE marks are scrutinized by the concerned department and then by the principal office before being displayed on the notice board or college website and finally sent or uploaded to the university portal. The students can check their marks or total assessment marks at the end of each semester and are given ample period to review and report any complaints. The students are also sensitized regarding final university examinations. If any student is not satisfied with the university exanimation marks, he or she can apply for re-evaluation as per the university norms. Grievances raised by the students are successfully communicated to the university so that necessary steps can be taken. The university's replies to student issues are communicated to them as soon as possible.

# 2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Manipur college is affiliated with Manipur University and under the Directorate of University and Higher Education, Government of Manipur, the college is bound by the university rules and regulations including the academic calendar and final semester-end examination schedule and also the commencement of academic session and vacations and/or semester breaks. The college academic committee prepared the tentative academic calendar based on the university academic calendar. Each department prepared detailed academic calendars systematically and cohesively including class timetables, assignments, and class tests. Both university and college academic calendars are placed on the college notice board and website for reference. The institution adheres to the academic calendar including for the conduct of CIE. The college adheres to an academic calendar prepared by Academic Committee of the college for each academic session. This academic calendar is to be followed with Holliday List issued by the Principal of the college. The academic calendar incorporates academic, cocurricular and assessment activities of the college both internal assessment and university examinations. The academic calendar of the college specifies dates of the following:- 1. Commencement of the academic session for the third Semester and fifth Semester. 2. Induction Ceremony for the first Semester. 3. Commencement of classes for the first Semester. 4. First Unit Test. 5. Second Unit Test. 6. Third Unit Test. 7. Collection of Feedback Forms. 8. Semester End Examinations for first, third and fifth Semester students followed by Winter Holidays. 9. Commencement of classes for second, fourth and sixth Semesters. 10. First Unit Test. 11. Second Unit Test. 12. Collection of Feedback Forms. 13. Semester End Examinations for second, fourth and sixth Semester students followed by Summer Vacation. The date fixed by the Academic Calendar for various activities of the college are strictly adhered to. In accordance to it, an Induction Ceremony for first Semester students is held to acquaint the newly

admitted students with the existing infrastructure and achievements of the college. The newly admitted students are also exhorted by the Principal and the faculty members of the college on the importance of discipline, regularity and punctuality in the college. The facilities available in the college are also highlighted to the students in the Induction Ceremony. The commencement of classes for first Semester follows this Induction Ceremony. The college also conducts Unit Tests for each theory paper for each Semester as per the Academic Calendar. The Unit Test 25 marks and is of 45 minutes duration with questions prepared by the concerned departments/teacher following the University question pattern. As for the Semester End Examinations for both Odd and Even Semesters, the college, being an affiliated college, follows the examination schedule of the affiliating University, i.e. Manipur University. These examination schedules of the University are incorporated in the academic calendar of the college. Further, collection of feedback forms from the students which is mandatory for NAAC Assessment is done as per Academic Calendar. The college, thus, carries out teaching and assessment activities in strict adherence to the Academic calendar.

The college being fully Government college, depends on the sanction of the government fund regarding the infrastructure maintenance. However, the college has established the College Development Committee who looks after the maintenance and the upkeep of the infrastructure facilities and equipment's. The Committee oversees the maintenance and up-gradation of the infrastructure facilities available in college. And the following infrastructure facilities are maintained properly - Library - The Library Advisory Committee was formed with members from various department of the College, holds its periodic meetings and discusses in detail about the maintenance and smooth conduct of library. The committee also suggests the name of the books which are needed to be purchased for the benefits of the students as well as the teachers and forwarded to the Directorate of University and Higher Education, Government of Manipur. Following are the few distinctive features of our institution Library: a) The library is partially automated using the SOUL SERVER 2.0 software of INFLIBNET. b) Meeting of library sub-committee takes place at regular interval c) Books/journals as recommended by different departments are purchased whenever fund is sanctioned by the Directorate of Higher Education, Government of Manipur. Games and Sports: Games and Sports Committee was also established with students' council/bodies and discusses in details about the maintenance and up-gradation of the sports facilities and infrastructure. The committee also suggest for procurement of the various sports related articles a item yearly prior to the functioning and participation of college week and university meet of various games and sports. Computer: Computer are checked frequently by the convener of ICT co-ordination committee and if any problem is found with related to the computer, then necessary arrangements are made for solving the problem at the earliest. Classrooms: All the Classrooms are cleaned regularly by the environmental club. There are three sweeping and cleaning staff who keep the class room, furniture, and other things clean. The development committee purchase new furniture for each academic year for student tables and benches whenever fund is received from the Directorate of Higher Education, Government of Manipur.

# CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

# 6.1 – Institutional Vision and Leadership

- 6.1.1 Mention two practices of decentralization and participative management during the last year (maximum 500 words)
  - 1. Manipur College is an ideal Institution in which Principal office act as a decentralizing agency. Committee System was constituted on 11 April, 2016 to decentralized the academic climate of Manipur College. However, the Principal does not function in isolation. In the decision making process the representatives or members of the relevant committees of teaching and nonteaching staff of the college took the decision first and the resolution are implemented by the principal office in consultation with the IQAC office. While formulating major policies, the opinions of different committees are given due consideration and importance. When it comes to implementation of the policies of the Government of Manipur or affiliating Manipur University, the Principal ensures execution there of through delegation to various committees and subcommittees involving faculty members, non teaching staff and student representatives depending upon the functional areas. There are a host of committees to look into various dimensions of the college. In short, all the staff members are involved in various administrative roles. Committees of the college have been given free hand to formulate their plans and decide execution strategies. Academic Committee comprising of Heads of all the departments where all the academic and examination affairs placed and discussed in every academic session. The resolutions adopted in that meeting are implemented in the college. Examination Committee, Academic Committee, Library Committee, Overall development committee , Construction Committee, Environmental Committee, etc.

are .being involved in disseminating various activities in the College. 2. The Principal is the head of administrative unit in the college, Manipur College Teachers Association(MCTA) is the driving force of the teacher community in the college. Manipur College Students Union (MCSU) is also one important driving force of the major learning community of the college for maintaining quality sustenance. A tripolar communication is established between the learning community to ensure effective college climate. The Principal is NOT a member of MCTA, so that MCTA can work independently and suggests the ways and means to the Principals Office from time to time at different levels. In addition to Manipur College Teachers Association(MCTA), There are various nodal officer who perform administrative work like RUSA, AISHE, ICT, Scholarship, etc. delegated by the principal as a way of decentralization. The Manipur College Students Union (MCSU) plays an important role in decentralizing administrative activities. All the Students of the College are the members. The executive committee of the union is elected through the voting system following the Lyngdoh Committee guidelines. Every elected representative is supervised by one Teacher-In-charge for the academic year for promoting and protecting the national values of democracy. Students Activities like College Week, Fresh meet, Social-cultural Meet, Sports Week, etc. are carried out in consultation with their concerned teacher-in-charge.

#### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Performance of the institution in one area distinctiveness: 1. The college being situated in urban area very near to Indo-Mynmar International highway attracts first generation learners. Most of the learners are from week financial backgrounds which is probably the root cause of dropouts. In spite of this bottleneck high success rate is seen among the students in the final semester examination. 2. An institution pursues distinctiveness as a way of focusing to empower all its students by inculcating discipline, imparting punctuality, enhancing learning potential, emphasizing on acquiring physical mental strength, developing character and leadership so that they possess a broader outlook towards the society, have humanity and can do selfless and relentless service towards the society for their whole life. Our effort to be distinctive is in harmony with the vision of the college to inculcate holistic development in the student. 3. Needless to say they are our proudest successes when the lesson learnt at college in class and outside it teaches them to stand on their own feet financially, emotionally and spiritually. Principal and other faculty provide tremendous emotional support to students. Days of National importance and days significant to the State of Manipur were celebrated with prayer, programmes, talks and student activities. 4. Sometimes teachers follow bilingual mode of instruction for the benefit of students. Student grievances if any are addressed promptly. The college conducts various activities to ensure student centric learning environment. 5. Field trips, inter-departmental activities and programmes organized with collaborative support from other organizations provide exposure to our rural students. Our NCC and NSS groups are vibrant and dynamic fostering our mission of character building, ethics and leadership. 6. Students are encouraged to participate in co-curricular and extra-curricular activities on and off campus. Students are encouraged to take part in the State level Students Project Programme, organized by Department of Science and Technology, Government of Manipur every year. 7. Sensitivity to the environment and eco-consciousness is fostered on our campus in every activity that is pursued. The college is delighted to report that the learning outcome of students is portrayed by many of our students qualifying/securing ranks at the Manipur University end semester examination. 8. The institute is committed to nurture students of extraordinary motivation and ability and prepare them for lifelong learning in an ever increasing, knowledge driven world. The College shall provide a platform to exist and past students for sharing their experiences for the growth and development of institution.
