CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

As an affiliated college, Manipur College has to transact and deliver the curriculum designed and developed by the affiliating University, Manipur University. For well-planned and effective delivery of the curriculum, an academic calendar is prepared by the Academic Committee of the college which details the various activities to be carried out in the academic session. The commencement of the Academic session follows the directives of Directorate of University and Higher Education, Manipur. Prior to the commencement of the academic session, a meeting of all HOD's of the 14 departments was convened by IQAC on 4th July, 2018. The college ensures effective delivery of the curriculum through proper planning by faculties. Before the beginning of the academic session allocation of the contents of the syllabus is made among the faculty members of every department. Every department prepares its own work-load assigning faculties to deliver the curriculum developed by the university. College specific academic calendar is prepared by the academic committee in the beginning of every academic session in accordance with the tentative academic calendar published by the Manipur University. General time table is prepared for the college to accommodate all subjects. Remedial courses are arranged for slow learners or educationally disadvantaged or among the educationally weaker section students who have started pursuing the programme but find themselves difficult to continue courses. These students are taught again to remove their difficulties related to their content that they previously failed to learn. Every department conducts remediation before additional skills are taught or more formal tests or before any assessment. Tutorial classes are also conducted to impart knowledge in a more student-centric or outcome-centric way by giving assignments, practicum to the students to improve problem solving skills and abilities. Besides traditional classroom teaching, different participatory learning activities like Individualized instruction, Programmed instruction, Project work, Field Study, Assignment, Practical and other learner-directed inputs are used to make the learning student centered. Modern teaching aids like LCD projectors, Smart boards, dust-free white boards, Infilbnet facility etc. are made available in the college to make learning more interesting. Departmental seminars are organised among the students and faculties on different topics by making groups to increase their knowledge in different pedagogical ways. Though the credit system has not yet been established by Manipur University, considering 6 credits for a paper and a 1 credit is calculated as interaction of 1 hour in a week for a semester, the interaction between faculties and students are so designed while preparing work-load of faculties. Experiential learning has been incorporated in various subjects as developed by Manipur University, namely, in undergraduate programs in Education, Geography, Botany and Zoology by way of organising study tours, field work and projects. Though experiential learning has not exclusively been developed in curriculum for other subjects, efforts are being made to explore similar methods to make teaching learning more interactive by visiting historical sites, and other places of national interest and importance.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	No

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution?
(maximum 500 words)

Feedback Obtained
<p>Manipur College collects feedback from the stakeholders of the institution to be analyzed and utilized for the overall development of the college and to enhance the learning effectiveness. Feedback is collected from students of the college through questionnaire as a part of Quality Assurance. The questionnaire employed covers all the facets of provision for holistic learning in this fast-paced dynamic world, such as students' feedback on teachers, infrastructure, syllabus and co-curricular activities, curriculum and teaching, teacher quality, and other facilities. Feedback Satisfaction Survey are also collected annually from the students to ascertain their satisfaction towards the faculty, teaching-learning and evaluation. These feedbacks are collected informally and anonymity is given to respondents in order to ensure their feedback is free from intimidation or coercion. The questionnaire focusses on the teacher's performance as a teacher in the class, helpfulness, mastery of the subject matter, communication skills, sincerity and commitment. This helps the teacher to improve his/her performance in the weak areas. The collected data are analyzed using SPSS software which enables IQAC to understand the teacher's profile. Statistical test is applied to various feedback questions relating to teachers, syllabus, infrastructure and co-curricular activities to check whether the students' responses are statistically significant. The findings and shortcomings are discussed in IQAC meetings with Heads of Department to</p>

identify the underlying problems which led to the shortcomings. These problems are thereby segregated into short, medium and long term goals with suggested solutions and road map to achieve them. Any shortcomings in teaching are addressed intra-departmentally and teachers are assigned different papers by rotation in order to combat fatigue and boredom, and to motivate team-teaching and invoke vigor, and enthusiasm. The feedback is finally discussed in the general body meeting of the Manipur College Teachers' Association (MCTA) to be utilized for the overall development of the college.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Mentoring improves students' performance, by either helping them to attend college regularly or once they are there, to be retained through to degree completion. It also provides educational guidance and counselling, and psychological support or mental health to the needy students. Mentoring influences students' outcomes such as sense of belongingness, capacity for responsibility, leadership, self-confidence, skills and abilities, the spirit of competition and compassion for the environment. Mentors may also benefit from relationships with undergraduate students, including improved cognitive and socio-emotional growth, teaching and communication skills. Mentored students generally earn more grades and are likely to persist in college as compared to non-mentored students. At the beginning of the academic session, each student is assigned a mentor to address their grievances within and outside the classroom. The general objectives of introducing mentor-mentee system in the college are as under: Objectives: 1. To provide a reliable and comprehensive student support system. 2. To motivate them towards their academic and non-academic fields. 3. To enhance students' attendance and minimize student drop-out rates. 4. To identify learning difficulties and provide remedial classes to the learners. 5. To render equitable service to students. 6. To identify problems and grievances of the students and raise them to the concerned authorities. 7. To help fresh students to understand the challenges and opportunities in the college and develop a smooth transition from school to collegiate life. Implementation of the students mentoring system: The implementation of student mentoring system will be in the following phases: Phase I: Selecting faculty mentors. Phase II: Allotment of students to the mentors. Phase III: Interaction of students with the mentors and identifying strengths and weaknesses of the mentees. Phase IV: Creating groups (mentor-mentees) to keep contact within the group. Phase V: Periodic meeting of the mentees with the mentors. Phase VI: Obtaining feedback from the mentees at the end of the session. Structure of the Students Mentoring System: Students mentoring system primarily deals with all the undergraduate and postgraduate students of our college and all full-time teachers will perform their duties as mentors. Mentor-Mentees Ratio: 1:38 Role of faculty mentor (FM): The FM will perform the following duties: 1. Meet their group of students at least twice in each semester. 2. Continuously monitor, counsel, guide and motivate the students in all academic matters 3. To identify weakness in particular subject so that the concerned mentor apprises the matter to the concerned faculty or Head of the Department. 4. Maintain a progress report of the student. 5. Advise students in their career development guidance. 6. Contact parents/guardians if situation demands e.g. academic irregularities, detrimental activities etc. and arrange special meetings with the Principal if required.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Manipur college has a robust approach to the process of continuous assessment or examinations in a transparent, efficient manner, and in the best interest of students following the university rules and/or guidelines. The internal assessment weightage consists of 25 marks and the remaining 75 marks in the final university end semester exams. The university exams are conducted uniformly across the constituent and/or affiliated colleges. The continuous internal evaluation (CIE) is conducted through class tests and assignments and is carried out in a well-planned and systematic manner based on course outcomes (COs). The evaluated answer papers related to internal examinations are shown to the students for their discrepancies to be rectified, and suggestions for improvements. Any queries related to evaluations and feedback are thoroughly addressed. Science students or students involving practical classes are awarded practical marks based on attendance, timely submission of the practical notebook, and viva-voce which makes them aware of the significance of consistency while attending practical classes. External examiners are appointed through the university during practical examinations. Students who are slow learners are given multiple opportunities to improve in their CIE. Students involved in extra-curricular works like NCC, NSS, or active members in societies are given ample opportunities to catch up with the rest of the class.

The college has a well-defined system related to examination related grievances. The final CIE marks are scrutinized by the concerned department and then by the principal office before being displayed on the notice board or college website and finally sent or uploaded to the university portal. The students can check their marks or total assessment marks at the end of each semester and are given ample period to review and report any complaints. The students are also sensitized regarding final university examinations. If any student is not satisfied with the university examination marks, he or she can apply for re-evaluation as per the university norms. Grievances raised by the students are successfully communicated to the university so that necessary steps can be taken. The university's replies to student issues are communicated to them as soon as possible.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Manipur college is affiliated with Manipur University and under the Directorate of University and Higher Education, Government of Manipur, the college is bound by the university rules and regulations including the academic calendar and final semester-end examination schedule and also the commencement of academic session and vacations and/or semester breaks. The college academic committee prepared the tentative academic calendar based on the university academic

calendar. Each department prepared detailed academic calendars systematically and cohesively including class timetables, assignments, and class tests. Both university and college academic calendars are placed on the college notice board and website for reference. The institution adheres to the academic calendar including the conduct of CIE. The college adheres to an academic calendar prepared by the Academic Committee of the college for each academic session. This academic calendar is to be followed by a holiday list issued by the Principal of the college. The academic calendar incorporates academic, co-curricular, and assessment activities of the college both internal assessment and university examinations. The academic calendar of the college specifies dates of the following: 1. Commencement of the academic session for the third semester and fifth semester. 2. Induction programme for the first semester. 3. Commencement of classes for the first semester. 4. First unit test. 5. Second unit test. 6. Third unit test. 7. Collection of feedback forms. 8. Semester end examinations for first, third, and fifth Semester students followed by winter holidays. 9. Commencement of classes for second, fourth, and sixth semesters. 10. First unit test. 11. Second unit test. 12. Collection of feedback forms. 13. Semester end examinations for second, fourth, and sixth semester students followed by summer vacation. The date fixed by the academic calendar for various activities of the college is strictly adhered to. Following it, an Induction Programme for first semester students is held to acquaint the newly admitted students with the existing infrastructure and achievements of the college. The newly admitted students are also exhorted by the Principal and the faculty members of the college on the importance of discipline, regularity, and punctuality in the college. The facilities available in the college are also highlighted to the students in the Induction Programme. The commencement of classes for the first semester follows this Induction Programme. The college also conducts Unit Tests for each theory paper for each semester as per the academic calendar. The unit test has 25 marks and is 45 minutes duration with questions prepared by the concerned departments/teacher following the University question pattern. As for the semester-end examinations for both odd and even semesters, the college, being an affiliated college, follows the examination schedule of the affiliating university, i.e. Manipur University. These examination schedules of the University are incorporated into the academic calendar of the college. Further, the collection of feedback forms from the students which is mandatory for the NAAC Assessment is done as per academic calendar. The college, thus, carries out teaching and assessment activities in strict adherence to the academic calendar.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

1. Manipur College is an ideal Institution in which Principal office act as a decentralizing agency. Committee System was constituted on 11 April, 2016 to decentralized the academic climate of Manipur College. However, the Principal does not function in isolation. In the decision making process the representatives or members of the relevant committees of teaching and nonteaching staff of the college took the decision first and the resolution are implemented by the principal office in consultation with the IQAC office. While formulating major policies, the opinions of different committees are given due consideration and importance. When it comes to implementation of the policies of the Government of Manipur or affiliating Manipur University, the Principal ensures execution there of through delegation to various committees and subcommittees involving faculty members, non teaching staff and student representatives depending upon the functional areas. There are a host of committees to look into various dimensions of the college. In short, all the staff members are involved in various administrative roles. Committees of the college have been given free hand to formulate their plans and decide execution strategies. Academic Committee comprising of Heads of all the departments where all the academic and examination affairs placed and discussed in every academic session. The resolutions adopted in that meeting are implemented in the college. Examination Committee, Academic Committee, Library Committee, Overall development committee , Construction Committee, Environmental Committee, etc. are .being involved in disseminating various activities in the College. 2. The Principal is the head of administrative unit in the college, Manipur College Teachers Association(MCTA) is the driving force of the teacher community in the college. Manipur College Students Union (MCSU) is also one important driving force of the major learning community of the college for maintaining quality sustenance. A tripolar communication is established between the learning community to ensure effective college climate. The Principal is NOT a member of MCTA, so that MCTA can work independently and suggests the ways and means to the Principals Office from time to time at different levels. In addition to Manipur College Teachers Association(MCTA), There are various nodal officer who perform administrative work like RUSA, AISHE, ICT, Scholarship, etc. delegated by the principal as a way of decentralization. The Manipur College Students Union (MCSU) plays an important role in decentralizing administrative activities. All the Students of the College are the members. The executive committee of the union is elected through the voting system following the Lyngdoh Committee guidelines. Every elected representative is supervised by one Teacher-In-charge for the academic year for promoting and protecting the national values of democracy. Students Activities like College Week, Fresh meet, Social-cultural Meet, Sports Week, etc. are carried out in consultation with their concerned teacher-in-charge.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Female Dominated faculties. The performance of the college stands out for its distinctiveness in areas of the college having an active and vigorous female dominated workforce. This includes a women dominant faculty of twenty six (26) Regular faculties out of eighty two(82) faculties The Arts Stream comprises of twenty-three (23) females and twenty-one (21) males only whereas the Science stream comprises of twenty three(23) females and fifteen(15) males. The distinctiveness of the college lies in its female dominated workforce. Women clearly outnumber men in teaching positions. Consequently, all the Committees and Cells meant for administrative purpose are largely female dominated. Vice president and joint secretary of MCTA are also women faculties. In the committee system of our college, in environmental club all 10 members are women. So, the Heads of Departments of both Arts and Science stream disciplines six departments in arts stream head of department are women and two science streams. Woman in leadership positions in the college have done exceedingly well with their consensus building and collaborative approach. Women teachers in the college are eager learners too. With the gradual transition from paper centric approach to online culture, women have shown the readiness and willingness to learn. Within a short time, they have been able to develop digital skills needed to thrive and flourish in the modern education set up. Women teachers have also led student excursions and field trips to distant locations. Though confronted with work-life conflict, women teachers have never shied away from assuming responsibilities. On the other hand, they display exemplary dedication and sincerity in the discharge of assigned duties other than teaching. The female teachers have successfully handled and managed all the work related to the college. Having women at the centre of action has its own advantages in educational institutions. In dealing with the students women can bring their innate traits of compassion, sympathy and empathy. With their maternal instincts, women are better positioned to gauge the psyche of the students and deal with their problems. Women teachers in the college have proved to be excellent mentors and counsellors in dealing with multiple problems the students might be facing in their personal lives. Academic committee which is a driving force in teaching learning resources is headed by

a woman. There is a women committee cell, Women complaint cell in the college created specifically to generate sensitivity and make the campus gender friendly. During the conduct of cultural programmes like Freshers, College Week or Youth festivals, women teachers have brought their individual talent and skills in training the participants to excel in their respective fields. Their motivation and relentless hard work have inspired the students to deliver their best in these competitions. Even the sex ratio in the student population is in favors of the girls. The female teachers prove to be better in dealing with relationship issues, sexual harassment etc.
